PROFILE

Motivated Full Stack Web Developer (MERN) with hands-on experience in building responsive and user-focused applications. Skilled in React.js, Node.js, Express.js, and MongoDB with strong understanding of REST APIs, authentication, and modern UI frameworks. Passionate about problem-solving and developing scalable real-world solutions.

EXPERIENCE

Full Stack Web Developer Intern (6 Months)

Noitavonne IT Solution, Kolhapur

- Developed and optimized responsive interfaces using React.js and Tailwind CSS.
- Integrated and consumed REST APIs for dynamic frontend functionality.
- Built reusable UI components to improve performance and maintainability.
- Worked closely with backend and QA teams in an Agile workflow.

PROJECTS

Expense Tracker — MERN Stack | (React, Node, Express, MongoDB)

- Built a full-stack expense tracking application with secure authentication and protected routes using JWT and bcrypt.
- Implemented features like expense CRUD operations, category-based filtering, budget alerts, and saving goal tracking.
- Integrated interactive dashboards and graphical analytics using Chart.js for real-time spending visualization.
- Designed a responsive and user-friendly UI using Tailwind CSS and component-based architecture.

BlogSpace - Full Stack Blogging Platform

React.js, Node.js, Express.js, MySQL, Tailwind CSS, Multer

- Built a blogging system with blog creation, editing, deletion, and image upload support.
- Integrated JWT authentication with protected routes and role-based access control.
- Added blog search, categorization, and favourite feature with fully responsive dark-mode UI.
